

the problem

More than 23 million people in our country suffer from a serious alcohol or drug problem. The suffering is compounded when we include family or friends watching someone who needs help. The effects of addiction is overwhelming to families, community, friends and resources.

In North Dakota, 72% of new prison arrivals over the past 3 years had addiction issues.

Lack of a stable, alcohol and drug free living environment can be a serious obstacle to recovery.

Everything in life depends on our choices and attitudes. Hope Landing encourages a hopeful and successful future.

Unhealthy and unsafe living environments can derail recovery for any individual, even highly motivated individuals.

Hope's Landing is dedicated to helping those in recovery to become reconciled with God, themselves and society.
